

V.KISHORE

COMPUTER SCIENCE ENGINEERING STUDENT

Chennai, Tamil Nadu | <https://www.linkedin.com/in/contact-kishore-v> | GitHub: github.com/Kishore-2007-web
| itsmekishore00@gmail.com | 8838635463 | Portfolio: kishore-portfolio-2026.vercel.app

SUMMARY

Motivated Computer Science Engineering student with knowledge of web development, programming, app development concepts, and UI/UX fundamentals. Familiar with HTML, CSS, JavaScript, Python, C, and SQL through academic learning and personal projects. Interested in building practical software and web solutions while continuously improving technical, problem-solving, and teamwork skills.

SKILLS

- Programming: HTML, CSS, JavaScript, Python, MongoDB
- Web Development: Responsive Web Design, Frontend Development
- UI/UX Tools: Figma, Canva
- Development Tools: GitHub, VS Code, Blender, Antigravity
- Soft Skills: Communication, Teamwork, Problem Solving

PROJECTS

Kisa AI — AI-Powered Chatbot

Python · Flask · Groq API · Llama · JavaScript · Firebase

- Built and deployed an AI-powered conversational assistant using an LLM through the Groq API.
 - Integrated REST APIs to process user prompts and generate real-time AI responses.
 - Used AI-assisted development for debugging, feature implementation, and code optimization.
- Live:** kisa-ai.vercel.app

CalculatorHub — Multi-Calculator Platform

JavaScript · HTML · CSS · Vercel

- Developed a platform containing **300+ calculators** across multiple categories.
 - Created reusable calculation logic and responsive interfaces for different devices.
 - Used AI-assisted development for implementation, debugging, and optimization.
- GitHub:** github.com/Kishore-2007-web/calculatorhub

THACHAN — Carpenter Manpower Finder

React · JavaScript · Firebase · AI-Assisted Development

- Developing a platform to connect customers with carpenters and skilled manpower.
- Designed user flows around service discovery and real-world workforce requirements.
- Used AI-assisted development for UI implementation, debugging, architecture, and feature development.

My Pocket Tracker — Personal & Business Finance Platform

React · JavaScript · Firebase · Vercel

- Developed a unified finance platform for tracking income, expenses, savings, and business finances.
 - Designed dashboard-based workflows for managing personal and corporate financial activity.
 - Used AI-assisted development for feature implementation, debugging, and UI refinement.
- Live:** my-pocket-tracker.vercel.app

Auto Git Pusher — Git Automation Tool

Python · Git · GitHub · Automation

- Developed a utility to automate repetitive Git/GitHub push workflows.
- Automated repository update operations to simplify the development workflow.
- Used AI-assisted development to improve automation logic and troubleshoot implementation issues.

My Anime List — Anime Tracking Web Application

JavaScript · HTML · CSS · API Integration

- Built a responsive anime discovery and tracking application.
 - Integrated external data/API functionality to retrieve and display anime information.
 - Designed an interactive interface for browsing and organizing anime content.
- Live:** my-anime-list-dun.vercel.app

EDUCATION

Bachelor of Engineering in Computer Science and Engineering (B.E. CSE)

Jaya Engineering College | 2024 – 2028 (*Expected*)

Currently pursuing **3rd Year / 5th Semester** in Computer Science and Engineering, with focus on programming, web development, and software development fundamentals.

ADDITIONAL INFORMATION

- **Languages:** Tamil, English
- **Interests:** Web Development, UI/UX Design, 3D Modeling, Game Development Basics
- **Strengths:** Quick Learner, Creativity, Teamwork, Adaptability
- **Career Objective:** To build a strong career in software and web development by continuously improving my technical and creative skills.

CERTIFICATIONS

- **Web Development Fundamentals** — IBM SkillsBuild | 2026
- **Introduction to Generative AI** — Google | 2026
- **MongoDB Basics for Students** — MongoDB | 2026
